

Coordinator of Monitoring Programmes (Julie)

- Advertise opportunities for “citizen science” monitoring programmes on Motuike Island
- Liaise between the trust Biodiversity Committee, scientists and volunteers to offer training for monitoring protocols on Motuike Island
- Maintain a mailing list for all monitoring teams, eg LSK call count team and Reptile monitoring team.
- Co-ordinate trained volunteers, transport and accommodation in top house for volunteers to complete annual surveys.
- Co-ordinate the set-up and maintenance of monitoring stations each year.
- Manage volunteer monitoring teams while on the island: - health and safety, biosecurity, accommodation and food.
- Supply feedback to volunteer monitoring teams to assist their future involvement
- Ensure that monitoring data is recorded and available on our website.
- Ensure that monitoring information, protocols and reports are available on our website.
