

Guided Tours

Guided tours of Heritage Walk and the Motuike Track especially the Saddleback Track (Tieke) section can be offered if resource available. Guided tours need to be booked and paid for at the kiosk. Please refer to the Training & Operations Manual or Kiosk Management for current pricing.

The **Saddleback Track (Tieke) Bush Walk** is about 4.1 kms (kiosk to kiosk) using the return track past the dam and through the track interchange area near the woolshed. At a brisk pace this will take 1.25 hours. However with stops and depending on fitness and children it could take a good 2 hours.

In your initial briefing, make sure visitors are aware of this timeframe and are prepared (apply sun screen, carrying water and have appropriate footwear.) Include the safety briefing as per the notes. At times the pollen count can be very high on the Saddleback Track (Tieke). At the interchange on your return journey, please stop and give people the option to leave the group, if they wish, to head to Calypso or Snapper Bay for a swim.
